

Data Sheet

Chawton Park Surgery, Alton

Completed September 2013.

Reside Construction Ltd have successfully completed the new contract to provide a new Pharmacy and additional consulting and clinical rooms to Chawton Park Surgery in Alton. The project was a complex operation due to the necessity to maintain access to the surgery through the main entrance, which was directly adjacent to the construction site.

With the need to replicate the look of the original surgery, the project was successfully completed within the project duration and to budget, providing additional space to this valuable facility.

Contract value was £200k and the works were split into two sections to enable the practice to decant during this time.

Client—Chawton Park Surgery

Architect—Studio Four Architects

Structural Engineer—Paul Tanner Associates.
