

Data Sheet

The Meads Surgery, Uckfield

Completed February 2013.

Reside Construction have successfully completed the construction of The Meads Surgery in Uckfield, East Sussex for Medicx Property Ltd.

The structure is traditional masonry , with pre cast concrete floors, timber roof structure and a slate tiled roof. A new access road built under a 278 Agreement with the Local Authority forms the new entrance to the site from the main Bell Farm Road into Uckfield. The site is on existing green field land earmarked for the development of a primary care facility to serve the growing population of Uckfield.

The project was very successful with Reside completing the facility on time, on budget and to the Clients delight. It provides 996m2 of healthcare space, GP Consulting Rooms, Treatment Rooms, Minor Operations suites and includes a Pharmacy.

Client—Medicx Property Ltd. Architect—Simpson Hilder Associates. Quantity Surveyor—Riley Consulting. M&E Consultant - ESP Ltd.
