

Data Sheet

Hydawn, Alresford

Located in the Hampshire village of Gundleton, near Alresford, Hydawn is a privately-owned residential property.

Reside Construction was commissioned to demolish the existing house on the site, and construct a new single storey dwelling for the client, including new access drive and external works.

Features of note include the timber frame construction. The dwelling was designed to be highly thermally efficient with the walls particularly well insulated.

An air source heat pump provided cost effective hot water and heating to the dwelling. A heat recovery system provided additional heating by reuse.

Reside worked with Snug Architects on this project, who carried out all the roles of architect, engineer, quantity surveyor and employer's agent.

Project value = £530k
