

Data Sheet

Housing Development, Totton

Situated on the former “Players” pub in Totton, we set about transforming the abandoned pub into six new dwellings for the rental market. The scheme consisted of four semi detached and two detached properties, with two, two bedroom and four, three bedroom houses. All houses benefit from underfloor heating, provided by an air source heat pump and an excellently insulated building fabric which exceeds building regulations.

These houses are a valuable addition to the Clients’ portfolio of accommodation for the rental market and were completed within the contracted duration and exactly on budget, much to our Clients’ delight.
